IdealDoorGarageDoors.com
A garage door can represent as much as 30% of your home’s front façade. Homes with forward-facing garages see immediate improved curb appeal.

**VALUE**
According to *Remodeling* magazine, replacing your garage door ranks as the number one home improvement project for return on investment!

**ENERGY EFFICIENCY & DURABILITY**
If your garage is attached to your home, an energy-efficient door can do more than lower energy costs; insulated doors are also quieter and more durable.

**IDEAL DOOR** offers a complete line of top quality garage doors that are sure to add curb appeal and value to any home.

**OUR DOORS ARE MADE IN AMERICA BY AMERICAN WORKERS**
We pride ourselves on our skilled American workforce. Based in the midwest for over 50 years, Ideal Door is committed to producing quality garage doors at affordable prices.
WE MAKE GARAGE DOORS

EASY

STEP

1

CHOOSE YOUR GARAGE DOOR STYLE AND DESIGN

TRADITIONAL STEEL PANEL

Classic door styles with varying levels of energy efficiency.

Pages 6–9

DESIGNER STEEL PANEL

Versatile designs feature decorative hardware and larger window styles for a designer’s touch.

Pages 10–11

MODERN STEEL PANEL

Clean, simple lines to complement modern exteriors.

Pages 12–13

PREMIUM HANDCRAFTED

Maximize your home’s curb appeal with these handcrafted styles.

Pages 16–23

COMMERCIAL STEEL PANEL

Commercial designs for storage sheds, outbuildings and businesses.

Pages 28–29

NON INSULATED
INTELLICORE® WARMER. QUIETER. STRONGER.

Intellicore® by IDEAL Door is a proprietary polyurethane foam that is injected into a garage door, expanding to fill the entire structure. The result is a door with incredible strength and durability.

Its dense insulation also produces a quieter door, while its industry-leading R-values (up to 20.4) provide year-round comfort and improved energy efficiency.

GARAGE DOORS FEATURING INTELLICORE® INSULATION TECHNOLOGY REPRESENT THE ULTIMATE SMART CHOICE FOR HOMEOWNERS.

INTELLICORE®

WARMER. QUIETER. STRONGER.

Look for the Intellicore® icon throughout this brochure on BEST door models.

WARMER.
Comfort in every climate
Warmer in winter and cooler in summer by up to 20°

QUIETER.
A quieter home is a happier home
Three-times quieter than a non-insulated door

STRONGER.
Built for the toughest conditions
Longer lasting and nearly twice as strong as a polystyrene door

TEMPERATURE COMPARISON
Outdoors vs. Garage with Intellicore® Insulated Door

OVERALL VOLUME OF SOUND

WEIGHT APPLIED UNTIL STRUCTURAL FAILURE

Look for the Intellicore® icon throughout this brochure on BEST door models.

MEASURING FOR YOUR NEW DOOR

1. Measure existing door width and height in feet and inches. This determines the size of door needed. The rough opening should be the same size as the door.

   Width: ____________________ Height: ____________________

2. Measure for sideroom. Measure both the left and right and use the smallest measurement.

   Sideroom: ____________________

3. Measure area labeled “headroom” – distance between the top of the door opening (“header”) and the ceiling (or first obstruction, e.g., light fixture).

   Headroom: ____________________

4. Measure area labeled “backroom” – distance is measured from the garage door opening toward the back wall of the garage.

   Backroom: ____________________

Common garage door widths include 8’, 9’, 16’ and 18’.
Common garage door heights include 7’ and 8’.

YOUR DREAM DOOR IS JUST A FEW CLICKS AWAY!
